4. Leveraging *Storytelling* and *Empathy* as an **Inspiring Facilitator**

EDUTAINMENT!

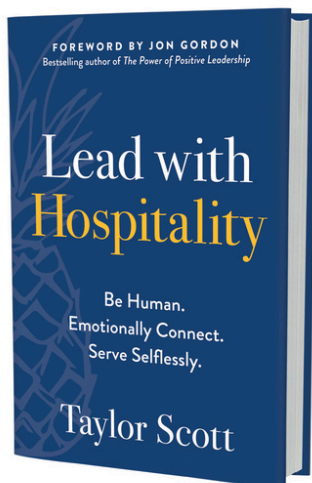

THE ART AND SCIENCE OF INSPIRING FACILITATION

We believe in the *magic* of leadership development and frontline team development. Rather than refer to them as “workshops”, we view them as “LIVE Learning Experiences”.

In this *Edutainment* learning experience, emerging and seasoned Facilitators alike will share and gain best practices for how to **Facilitate Inspirational Learning Experiences** for today’s modern workforce; instead of merely “presenting information”.

Our partners and client organizations often value our emotionally connected, engaging style of creating and delivering LIVE learning experiences – for frontline teams and for leadership teams. This learning experience enables in-house Facilitators to lean into their own uniqueness to become *Edutainers*! We enable our own clients’ Facilitator Teams to *emotionally connect* with, *serve*, *engage*, and *inspire* their participants in every session.
